# COMPANY PROFILE

- **SUN CRANES & HOISTS (P) LIMITED** was started in 1990 by **MR.S.BABU** – Managing Director of the company.
- Since 1990, Sun Cranes and Hoists has supplied services par excellence to our esteemed clients. Our Company's commitment to invention is backed by extraordinary engineers. As an industry leader, Sun Cranes and Hoists matches material handling solutions in fields, Material lifting equipment, Heavy Engineering, Gantry Cranes, Semi-gantry Cranes, Under slung Cranes, Jib Cranes and Electrical Hoists.
- We are privileged in providing our vast range of products and services, both standard and custom, and they have been developed using the most sophisticated technologies available today.
- Sun Cranes and Hoists is a direct Reflection of the quality and Dependability of our people. Without a doubt, the reputations we enjoy in the industry and the quality of the products we deliver are a direct result of our employees' attitudes, dedication, skills and integrity.
- Our service is timely and valuable thus giving you reliability and dependability at every step. Our experienced service team is capable of handling the toughest of jobs whether it is a limited project or a mission critical application.

# IN ASSOCIATE PARTNER WITH

# SINGLE GIRDER EOT CRANE

We offer Single Girder EOT Cranes in varied capacity ranges. These single girder EOT cranes provide space for material handling. It is applicable in the area of production unit or warehouse is comparatively small. Our range is widely used in steel, cement and energy plants. Sun cranes provide effective material flow solution. This can be achieved for loads up to 10T in single girder EOT cranes.

Single girder travelling cranes adapt to various building applications. Motor used for frequent starting, reversing and braking are done by using the remote. Easy maintenance and outstanding travel characteristics ensuring safe handling. Furthermore, these cranes ensure minimum dead weight, wheel loads, headrooms, clearances and reduced building costs. We have delivered several single girder EOT cranes to our clients around the country. This continuous effort to deliver the best have made us to become one of the best single girder EOT crane manufacturer in Chennai.

# DOUBLE GIRDER EOT CRANE

Double Girder cranes are considered ideal for powerhouse, where these cranes are used for maintenance purpose. Being robust in construction, highly reliable and safe, our cranes are strictly checked at each stage of production process. Moreover, we can also customize these cranes to meet the varied requirements of our esteemed clients.

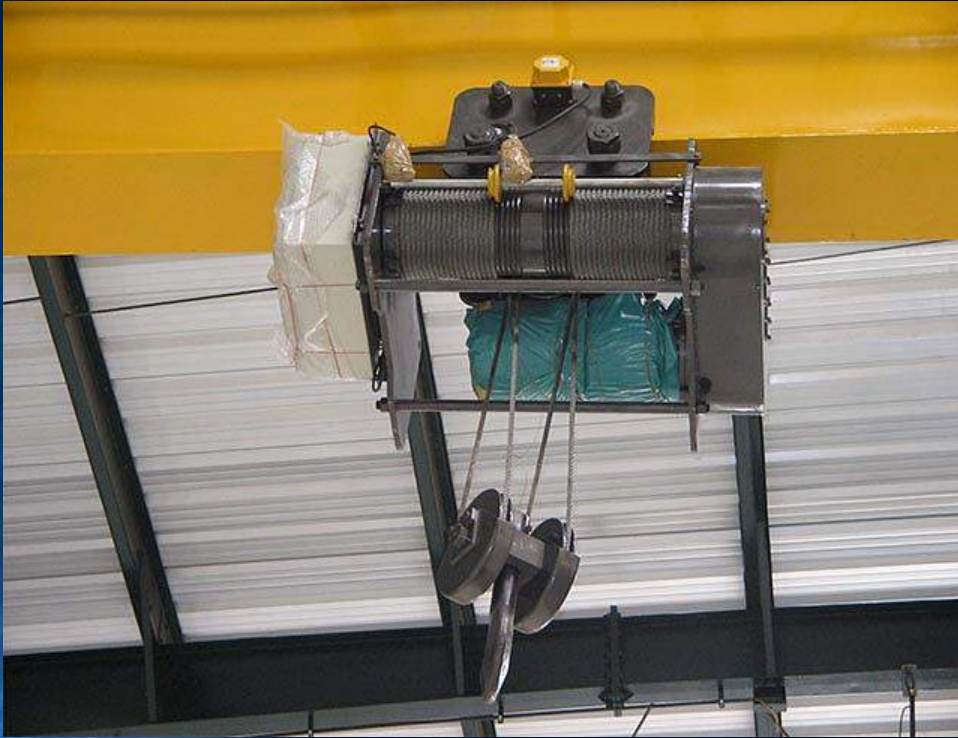

These cranes are considered heavy duty due to their robust design and construction. Also they are more rigid and stronger compared to Single Girder Cranes and offers the advantage of high lift. These cranes find extensive use in continuous production plants like steel, Cement, Power & other engineering industries. Moreover, we can customize these cranes to suit the varied requirements of customers.

# WALL & PILLAR MOUNTED JIB CRANE

We offer different types of Jib Cranes including Hydraulic Jib cranes, tower cranes, portable, telescoping Jib cranes, and cantilever or horizontal beam arm cranes. These cranes are manufactured using quality raw material and components, they are extensively used in foundry, machine shop and engineering related industries for carrying and heavy load material. Since these Jib cranes occupy minimum space, these can be mounted on any existing structure. Further, our ranges can be customized as per the specification of clients with Compact & Economical Design. We manufacture Floor & Wall Mounted Jib Cranes with 180 & 360 degree swiveling. Substitute loading & unloading operation instead of for carrying and heavy load material.

# ELECTRIC WIRE ROPE HOIST

Sun Cranes is a leading electric wire rope hoist manufacturer in Chennai. Electric wire rope hoists from Sun Cranes are available in standard and heavy duty designed to suit varied applications. Our electric wire rope hoists have many standard features traditionally known as optional on most electric wire rope hoists by other manufactures .Our through professionalism has enabled to nourish long-lasting relationship with clients world-wide. All units come standard with a mechanical load brake. Many different speeds and lifts are available, as well as motorized trolleys and lug mount kits. Our electric wire rope hoists are stronger by design and modular in construction for easy maintenance. They undergo rigorous testing and comply with quality standards. We also offer customized hoists to suit site conditions.

# GANTRY CRANE

We are specialized in offering Gantry cranes that are ideal for situations in which you have no elevated runway or top rail to run your crane along. Double leg gantries (both legs run along a rail at ground level) are often used in loading docks and shipyards. These cranes are found in extensive outdoor applications where there is no covered shed.

# COMPANY STRUCTURE

## SIZE AND SCOPE OF BUSINESS:

- Total Land Area : 16,000 Sq Ft
- Build Up Area : 12,000 Sq Ft
- Investment : 300 Lakhs

## VITAL FEATURES:

- Operation - User Friendly
- Maintenance -Very low
- Most advantageous load lifting capacity
- Powerful, Effortless & Solid Rigidity Structure
- Least deflection
- Easy installation

# LATEST & INNOVATIVE TECHNOLOGY

- Sun Cranes & Hoists has always grown with
  - Innovative engineering.
  - Research and Development.
- Sun Cranes & Hoists is committed to
  - Introducing latest generation technologies.
  - Adapting these technologies to suit the operating environment.
  - Developing and manufacture globally competitive, customer focused products of world-class quality.
  - Responsibly introduce these products into relevant markets.
  - Providing world class customer support.

# WHY SUNCRANES!!!!!!

- Offering Customized Solutions under one roof with client's expected standards and specifications.
- State of Art Infrastructure with best and updated software engineering tools.
- Leveraging best talents across country to offer Highly Competitive Rates resulting savings to our clients.
- Well organized and Dedicated Team with single POC solutions as per client requirement with impeccable consistency.
- On Time Delivery, Every Time without flaws.
- Efficient and well trained Manpower supervised by dynamic team leaders with strong domain expertise in the respective engineering discipline.
- Practising Strong Management principles and best business practices.
